INDEPENDENT AUDITORS' REPORT

Board of Directors
Big Bend Groundwater Management District No. 5
Stafford, Kansas

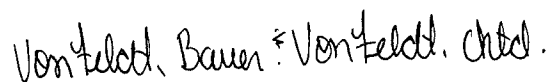

We have audited the accompanying financial statements of Big Bend Groundwater Management District No. 5, Stafford, Kansas, as of and for the year ended December 31, 2009, as listed in the table of contents. These financial statements are the responsibility of the District's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year partial (and summarized) comparative financial information has been derived from the District's December 31, 2008 financial statements and, in our report dated February 15, 2009, we expressed an unqualified opinion on the financial statements taken as a whole.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the guidance in the Kansas Municipal Audit Guide. Those standards and guidance require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed more fully in Note 1, Big Bend Groundwater Management District No. 5, Stafford, Kansas has prepared these financial statements in conformity with the accounting practices prescribed by the State of Kansas to demonstrate compliance with the cash basis and budget laws of the State of Kansas, which practices differ from accounting principles generally accepted in the United States of America. The effect on the financial statements of the variances between these regulatory accounting practices and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

In our opinion, because of the effects of the matter discussed in the preceding paragraph, the financial statements referred to above do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of Big Bend Groundwater Management District No. 5, Stafford, Kansas as of December 31, 2009, or the changes in its financial position for the year then ended.

In addition, in our opinion, the financial statements referred to above present fairly, in all material respects, the cash and unencumbered cash balances of Big Bend Groundwater Management District No. 5, Stafford, Kansas, as of December 31, 2009 and its cash receipts and expenditures, and budgetary comparisons for the year then ended, taken as a whole, on the basis of accounting described in Note 1.

BIG BEND GROUNDWATER MANAGEMENT DISTRICT NO. 5
NOTES TO FINANCIAL STATEMENTS
December 31, 2009

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. REPORTING ENTITY

Big Bend Groundwater Management District No. 5, Stafford, Kansas is a municipal corporation governed by an elected nine member board. A primary government is a legal entity or public politic and includes all funds, organizations, institutions, agencies, departments, and offices that are not legally separate. Such legally separate entities are referred to as component units. Big Bend Groundwater Management District No. 5, Stafford, Kansas, has no component units as of December 31, 2009.

B. FUND ACCOUNTING

A fund is defined as an independent fiscal and accounting entity with a self-balancing set of accounts recording cash and other financial resources, together with all related liabilities and residual equities or balances, and changes therein, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions or limitations.

The following types of funds comprise the financial activities of the District for the year ended December 31, 2009:

GOVERNMENTAL FUNDS

General Fund--to account for all unrestricted resources except those required to be accounted for in another fund.

C. BASIS OF ACCOUNTING

Statutory Basis of Accounting: The statutory basis of accounting, as used in the preparation of these statutory basis financial statements, is designed to demonstrate compliance with the cash basis and budget laws of the State of Kansas. Cash receipts are recognized when the cash balance of a fund is increased. Expenditures include disbursements, accounts payable, and encumbrances, with disbursements being adjusted for prior year's accounts payable and encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods and services, and are usually evidenced by a purchase order or written contract. For an interfund transaction, a cash receipt is recorded in the fund receiving cash from another fund, and an expenditure would be charged in the fund from which the transfer is made.

The municipality has approved a resolution that is in compliance with K.S.A. 75-1120a(c), waiving the requirement for application of generally accepted accounting principles and allowing the municipality to use the statutory basis of accounting.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd.)

C. BASIS OF ACCOUNTING (Cont'd.)

Departure from Accounting Principles Generally Accepted in the United States of America: The basis of accounting described above results in a financial statement presentation, which shows cash receipts, expenditures, cash and unencumbered cash balances, and expenditures compared to budget. Balance sheets that would have shown noncash assets such as receivables, inventories, and prepaid expense, liabilities such as deferred revenue and matured principal and interest payable, and reservations of the fund balance are not presented. Under accounting principles generally accepted in the United States of America, encumbrances are only recognized as a reservation of fund balance; encumbrances outstanding at year end do not constitute expenditures or liabilities. Consequently, the expenditures as reported do not present the cost of goods and services received during the fiscal year in accordance with generally accepted accounting principles. Capital assets that account for the land, buildings, and equipment owned by the municipality are not presented in the financial statements. Also, long-term debt such as general obligation bonds, revenue bonds, capital leases, temporary notes, and compensated absences are not presented in the financial statements.

D. CASH AND INVESTMENTS

Cash balances from all funds are combined and invested to the extent available. Cash and investments consist of checking accounts, interest bearing checking accounts, and certificates of deposit. Earnings from these investments are allocated to designated funds. Cash and investments are stated at cost.

E. COMPENSATED ABSENCES

Vacation Policy:

Full time employees accrue leave at the rate of 8 hours per month for years of employment one through nine, ten hours per month for years ten through nineteen, and 13 hours for years twenty and over. Annual leave may accumulate up to fifteen days plus one day for each year of employment. Any leave accumulated over this figure as of January 1 of each year will be lost. Payment of accrued annual leave time will be made at the time of termination providing the employee has been employed for a period of one year or more. The potential liability for unused vacation leave at December 31, 2009 and December 31, 2008 is \$12,456.45 and \$12,793.88 respectively, which represents a net change of (\$337.43). The costs of accumulated vacation benefits are not recorded in the financial statements at the time the benefits are earned by the employee.

Sick Leave:

Full time employees receive sick leave of one status day per full working month of employment. Sick leave will be allowed to accumulate to a maximum of 480 hours. Sick leave accrued in excess of 480 hours as of December 31 of each year shall be paid at one-half the hourly rate of an employee's salary for that calendar year. No payment will be made for accrued sick leave upon termination of employment, therefore there is no potential liability for accumulated sick leave as of December 31, 2009.

Personal Leave Days:

Full time employees receive three status days of personal leave annually. Personal leave shall not accumulate. Payment of accrued personal leave time will not be made at the time of termination of employment.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd.)

F. USE OF ESTIMATES

The preparation of financial statements on a prescribed basis of accounting that demonstrates compliance with the cash basis and budget laws of the State of Kansas requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

G. COMPARATIVE DATA

Comparative totals for the prior year have been presented in the accompany individual fund financial statements in order to provide an understanding of changes in the District's financial position and operation. Some prior year balances have been reclassified to conform with the current year presentation.

H. TOTAL COLUMNS (MEMORANDUM ONLY)

Total Columns on the Summary of Receipts, Expenditures and Unencumbered Cash are captioned "Memorandum Only" to indicate that they are presented only to aid in financial analysis. Interfund eliminations have not been made in the aggregation of this data; and it is, therefore, not comparable to a consolidation.

I. REIMBURSED EXPENSES

Big Bend Groundwater Management District No. 5, Stafford, Kansas, records reimbursable expenditures (or expense) in the fund that makes the disbursement and records reimbursements as revenue to the fund. For purposes of budgetary comparisons, the expenditures (or expenses) are properly offset by the reimbursements.

Note 2 - BUDGETARY INFORMATION

Kansas statutes require that an annual operating budget be legally adopted for the general fund, special revenue funds (unless specifically exempted by statute), debt service funds, and enterprise funds.

The Board shall submit the proposed budget for the ensuing year to the eligible voters of the District at a hearing called for that purpose by one publication in a newspaper or newspapers of general circulation within the District at least 28 days prior to the meeting. Following the meeting, the Board shall, by resolution, adopt either the proposed budget or a modified budget and determine the amount of land assessment or a user charge, or both, needed to support such budget.

The statutes permit transferring budgeted amounts between line items within an individual fund. However, such statutes prohibit expenditures in excess of the total amount of the adopted budget of expenditures of individual funds. Budget comparison statements are presented for each fund showing actual receipts and expenditures compared to legally budgeted receipts and expenditures.

Note 2 - BUDGETARY INFORMATION (Cont'd.)

All legal annual operating budgets are prepared using the statutory basis of accounting, in which, revenues are recognized when cash is received and expenditures include disbursements, accounts payable, and encumbrances, with disbursements being adjusted for prior year's accounts payable and encumbrances. Encumbrances are commitments by the municipality for future payments and are supported by a document evidencing the commitment, such as a purchase order or contract. Any unused budgeted expenditure authority lapses at year-end.

Note 3 - COMPLIANCE WITH KANSAS STATUTES

Management is aware of no statutory violations for the period covered by the audit.

Note 4 - DEPOSITS

K.S.A. 9-1401 establishes the depositories which may be used by the District. The statute requires banks eligible to hold the District's funds have a main or branch bank in the county in which the District is located, or in an adjoining county if such institution has been designated as an official depository, and the banks provide an acceptable rate of return on funds. In addition, K.S.A. 9-1402 requires the banks to pledge securities for deposits in excess of FDIC coverage. The District has no other policies that would further limit interest rate risk.

K.S.A. 12-1675 limits the District's investments of idle funds to time deposits, open accounts, and certificates of deposit with the allowable financial institutions; U.S. government securities; temporary notes; no-fund warrants; repurchase agreements; and the Kansas Municipal Investment Pool. The District has no investment policy that would further limit its investment choices.

Concentration of Credit Risk: State statutes place no limit on the amount the District may invest in any one issuer as long as the investments are adequately secured under K.S.A. 9-1402 and 9-1405.

Custodial Credit Risk - Deposits: Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. State statutes require the District's deposits in financial institutions to be entirely covered by federal depository insurance, bank guarantee bonds, or by collateral held under a joint custody receipt issued by a bank within the State of Kansas, the Federal Reserve Bank of Kansas District, or the Federal Home Loan Bank of Topeka, except during designated "peak periods" when required coverage is 50%. There were no designated "peak periods" during the year. All deposits were legally secured at December 31, 2009.

At December 31, 2009 the District's carrying amount of deposits was \$1,068,344.64 and the bank balance was \$1,082,113.48. The bank balance was held by three banks resulting in a concentration of credit risk. Of the bank balance, \$444,349.72 was covered by federal depository insurance and \$637,763.76 was collateralized with securities held by the pledging financial institution's agents in the District's name.

Note 5 - RISK MANAGEMENT

The District is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District obtains coverage from commercial insurance companies in order to effectively manage risk. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years. The District does not participate in a public entity risk pool.

INDEPENDENT AUDITORS' REPORT ON ADDITIONAL INFORMATION

Board of Directors
Big Bend Groundwater Management District No. 5
Stafford, Kansas

Our report on our audit of the financial statements of Big Bend Groundwater Management District No. 5, Stafford, Kansas, for the year ended December 31, 2009, appears on page 1. Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Big Bend Groundwater Management District No. 5, Stafford, Kansas's basic financial statements. The accompanying schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Because of the District's policy to prepare its financial statements on an other comprehensive basis of accounting, the financial statements referred to above do not present fairly in conformity with accounting principles generally accepted in the United States of America, the financial position of the governmental activity and the changes in financial position. The accompanying schedules have been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, are fairly stated in all material respects in relation to the financial statements taken as a whole on the basis of accounting described in Note 1.
